You're my fire escape, you don't let me burn
You're there when I reach points of no return

You're my fire escape when I need the breeze
When there's too much smoke you allow me to breathe

[Pre-drop]:

*Closed my windows, but I need to reach you
You've fought more, but you are stronger, too
All my dreams have never been so see through
Fire alarm and I escape to you*

You're my fire escape!

You've been through it all, but you never break
It's like you're made of steel, never felt so safe

You're my fire escape when I'm way too high
When I'm close to the edge you keep me alive

*And even though you're so fierce
Is it just when you're around me?*

[Pre-drop]

*Closed my windows, I'm afraid to reach you
Breathing slower when I'm not with you
I am cautious every time I touch you
I've seen everything that you've been through*

*Closed my windows, but I need to reach you
You've fought more, but you are stronger, too
All my dreams have never been so see through
Fire alarm and I escape to you*

You're my fire escape!
